Dear Susan:

Thank you, my friend, for the kind invitation to join you for this formal announcement of "The Craig and Susan Thomas Foundation." I truly regret my duties in Washington prevent me from being here! It is with great admiration of your goal to help our youth in need that I wait excitedly to hear more about your new venture.

To *Inspire* our youth is to give them a spark of hope for their future. To teach them *Leadership* through example and guidance provides them the skills and confidence they need to pursue their future. To provide youth with *Opportunity* is to watch that inspiration and leadership come to fruition. I believe children are our nation's greatest natural resource and through your and Craig's continued investment in their future, their lives are sure to thrive and improve in our ever changing world.

Susan, you are an inspiration to everyone here today. Fritz and I extend our support to you and best wishes for this notable occasion and its successful outcome.

With warm regards,

A handwritten signature in cursive script that reads "Barbara".
